

HON. WM. E. CHANDLER.

Hon. William E. Chandler, Secretary of the Navy, is a native of New Hampshire, having been born at Concord, December 28, 1835. Having acquired an academic education, he studied law, graduated from the Harvard Law School in 1855, with prize honors for an essay on the "Introduction of the Principles of Equity Jurisprudence into the Administration of the Common Law." A year later he commenced practice at the Bar, and in June, 1859, was appointed Law Reporter of the New Hampshire Supreme Court, and published five volumes of Reports. He early entered political life, and was a member of the New Hampshire Legislature in 1862, 1863 and 1864, and was Speaker of the House during the last two years, including the eventful conflict and riotous disturbances over the veto by Governor Gilmore of the soldiers' voting bill. In November, 1864, he was employed by the Navy Department as special counsel to prosecute the Philadelphia Navy Yard frauds and on March 9, 1865, was appointed by President Lincoln the First Solicitor and Judge Advocate-General of that Department. In the following June he was appointed First Assistant Secretary of the Treasury with Secretary McCulloch, and held the office a little over two years, resigning November 30, 1867. Since that time Mr. Chandler has practiced law in New Hampshire and Washington; has been solicitor of the National Life Insurance Company of Washington, counsel and one of the proprietors of the Washington Market Company, and has engaged in some mining and railroad enterprises; and has also been the principal owner of the Monitor and Statesman, the leading daily and weekly Republican newspaper of New Hampshire, at Concord.

Mr. Chandler's political career has been marked by great activity and prominence. He was several times Secretary of the Republican State Committee of New Hampshire, and Chairman during the eventful campaigns of 1863, 1864 and 1865. He was a delegate-at-large to the National Convention of 1868, and so remained during the campaigns of 1868 and 1872. In November, 1867, he was elected from Concord a member of the New Hampshire Constitutional Convention.

The New York Sun reports that when the President was told that his veto would cost the Republican party their control of the Pacific States, he is reported to have said that he had not given party considerations a thought while examining the bill, and that if any party would reap any advantage from Executive approval or disapproval of a bill which involves American principles that have been in vogue for a hundred years, it would be the party in the long run which stood on true American ground.

Beecher, in his Sunday sermon, spoke of the present Congress as the "Fool Congress," for cutting off the immigration of the Chinese, whom he said were necessary to do the "vulgar" work. We don't know what he calls "vulgar" work, but suppose he means building railroads, bridges, sewers, highways, etc. There are thousands of native Americans who don't consider such employment too "vulgar" for them, inasmuch as it is honest labor and brings clean money.

A hunter in Plumas County recently found a couple of sets of five-pronged deer horns, so firmly locked together that it was impossible to separate them. As the skeletons were attached to the horns it is evident that the deer were engaged in a desperate fight at the time of their death.

There are many members of Congress who think the present session will not continue longer than the middle of June, but how every member can make his half-dozen cut and dried set speeches by that time, no one has attempted to explain.

"John Arthur, the Mandarin President," is what some of the indignant Pacific Coast people call the President. "No callee me Chester; callee me John," is another slang device used by Coast people to show their opinion of the veto maker.

In order to hold up railroad enterprises in Texas the Legislature has passed a law exempting them from taxation for a period of twenty years. Texas will find out her error when it is too late.

The Republican majority in the State of Rhode Island is relatively larger than last year. Anthony is re-elected for the fifth term in the Senate.

The Virginia Chronicle no longer calls for Anti-Monopoly Leagues.

OBITUARY.

Bill Nye is not going to take any chances, and this is the way he writes the obituary of that prize murderer, Jesse James:

We are once more pained to announce the death of Hon. Jesse James. We speak of him as Honorable Jesse James, because it is possible he may not be dead yet, and we do not want any personalities raked up in case he should be still at large. The regular semi-annual death of Jesse James has been the cause of national sorrow for some time. His obituary has been written seven or eight times by the faltering hands that pen these lines, and we are still young. Death has claimed Mr. James for its own a good many times, and now he has again been butchered to make a Missouri holiday. The soil from Maine to California has been drenched with his gore, and the green grass waves above his ashes in every portion of our great land. No man has perished from the face of the earth so ubiquitously as Mr. James, and no other American citizen has yielded up his young life under such varied and peculiar circumstances. Lay him low where the bobolink blossoms on the sweet potato vine, and plant him in the valley where the pecan waves. Born of humble and obscure parents, he rapidly rose to the proud eminence of America's leading thief and murderer. When death marked him as its victim the last time, he was as prominent a man as Henry Ward Beecher or Roscoe Conkling. His genius took a different shoot, it is true, but he won a name as a plunderer which throws the achievements of our modern bank cashiers back into the cold and calm oblivion. Death has once more stilled the pulse of a man who, were it not for his little eccentricities as a human butcher and grand larceny connoisseur, would have made an elegant humorist or statesman. Had he been less of an enthusiast, and less radical as a murderer, he might have shone in the best society. Had he pleaded emotional insanity the first time he got up a surprise funeral, instead of making an outlaw of himself, he might now be alive, loved and respected. But he was ignorant of the law and thought that when a man murdered all the first-class passengers on a train, he would be dealt with harshly and ostracized.

Chandler and Blaine.

A New York Tribune's Washington special says: The relations of Blaine and Chandler have caused a good deal of speculation, most of it foolish, with regard to the effect that Chandler's appointment to the Cabinet might have on them. No one here who knows Chandler and knows his uncompromising sturdy character, will suppose for a moment that he will be a different man after he has entered the Cabinet from what he was before. His friendship with Blaine is as strong as ever, as Chandler took pains to show by accompanying the Maine leader to the hall of the House of Representatives on the day of the memorial oration of Garfield. Chandler will be the same independent and straightforward Republican in the Cabinet as he has always been outside of it, and his sole ambition will continue to be to do what he can for the whole Republican party.

Secretary Preston of the California Immigration Association, is in receipt of a letter from the Grand Duchy of Baden. The writer states that there is a regular fever of emigration prevalent, and that a large colony, with means, is forming to emigrate to the United States. He desires that the Association forward for distribution among the people, pamphlets, maps, etc., descriptive of California. The request has been complied with.

A cotemporary makes a suggestion that the people of the State have an effective remedy in their hands against Chinese immigration if they only take the trouble to use it. It is to not employ them in any capacity, and for all hands to refuse to buy any articles manufactured by Chinese. A systematic boycotting of this kind would soon settle the question, and make a prohibitory law superfluous.

There are at present over eighty men in the Arctic regions whose fate is wrapped in doubt and mystery, and in whom the United States is especially interested. Fifty-six of these belonged to the whaling barks Vigilant and Mount Wollaston. The missing officers and men of the ill-fated exploring yacht Jeannette represent the remainder.

John Russell Young, our recently appointed Minister to China, will be married on the eve of his departure for China to Miss Colman, a niece of ex-Governor Jewell, of Connecticut. The lady is very young, accomplished and handsome.

Unless the Democrats bury the hatchet in Tennessee, the Nashville World assures them that Horace Maynard will be the next United States Senator from that State.

The Ruby Hill News says it is understood 250 additional men will be placed at work there the present month. The so-called Eureka mines are located at Ruby Hill.

The Reno Journal hoists the name of Blaine for 1884, subject to the decision of the Republican Convention. Wonder if the Journal will support him should he follow in Greeley's footsteps.—[Eureka Leader.

The Journal will not.

The Winnemucca Silver State (Dem.)

commenting upon the vote in Congress on the Chinese bill, gives Congressman Cassidy the following direct slap:

This theory of platform has frequently been practically exemplified on this coast, notably once in the Nevada Legislature, when a member, who to influence voters, pledged his word to the electors in one section to vote as they wished on a certain proposition, and in another section to vote the opposite way, endeavoring to condone his offense by declaring in a set speech that the promises made by him as a private citizen before election were not binding upon him as an official after election.

We regret to observe the contemptible species of industry exhibited by some of our Democratic friends in striving to turn to partisan account the discomfort which President Arthur's veto entails upon the Republicans of the Pacific coast. They were quick to perceive the political advantages to them of such a veto, and have not been able to conceal their satisfaction at its appearance. The Democratic agitator seldom or never neglects an opportunity thus thrust upon him. He rejoices with a joy unspeakable over what appears to him a brilliant chance to pierce the compact lines which have hitherto successfully resisted the advance of his party to power. But we will tell such as he that, like the heathen, they rage and imagine a vain thing.—[Enterprise.

It is reported in financial circles that the world in general has overestimated the wealth of Mackay, Flood and Fair, and that if the firm was to-day compelled to convert all its property into coin it is doubtful whether the sum realized would amount to more than \$50,000,000. Even such a sum is a large amount, but this scribe ventures the opinion that if the said firm sticks to the Comstock five years longer the amount will be so materially decreased that it can be written without the last two ciphers.—[Eureka Leader.

It is pretty evident that Lowell will be recalled soon. His course regarding American citizens imprisoned abroad is unsatisfactory to the Administration.

The apparel does not always proclaim the man, but it unquestionably proclaims the tailor. A man in badly fitting clothes may be a great man, but he is a short sighted man else he would have gone to Jacobs and made himself solid with the public by getting some well cut clothes.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable active, Sarsaparilla, Dock Stillings, and Mandrake with the iodide of Potash and Iron makes a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humor in the system, that undermines health and settles into troublesome disorders. Eruptions on the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone the disorders they produce disappear, such as Ulceration of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Timples, Pustules, Blisters, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ring-worm, Ulcers and Sores, Rheumatic Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation, and General Debility. With their departure health returns.

## The Secrets of Success.

Unquestionably one of the most remarkable successes of any modern enterprise is that of Messrs. H. H. Warner & Co., of Rochester, N. Y., proprietors of the celebrated Safe Kidney and Liver Cure and other remedies. Their business is enormous, and is due wholly to two causes: First, the unique and powerful newspaper advertising they are doing; and secondly, to the real value of their medicines. The former fact proves the importance of the newspaper columns in the success of any business, and the latter shows the eagerness of the public to secure these articles, be they medicines or otherwise, that possess real merit.

## Telephone Co.

## AYER'S CATHARTIC PILLS

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum. Worms, Gout, Neuralgia, as a Dinner Pill, and purifying the blood, are the most congenial purgative ever perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as efficient. Being sugar coated, they are easy to take, and being purely vegetable, they are entirely harmless.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, AND CONSUMPTION.

The few compositions, which have won the confidence of mankind and become household words, among not only one, but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cure of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sick, nervous, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.
